German Climate Consortium

The Federation of German
Climate and Climate Impact
Research Organisations

Dear Reader,

The Deutsches Klima-Konsortium (DKK) represents the leading players of German climate and climate impact research encompassing more than 20 renowned research organisations. The federation is also an important international partner acting as a guidepost, strategic partner, project partner and information broker.

Thanks to their success in climate research, German research organisations have made a major contribution to the understanding of global climate change. Germany's climate researchers contribute as well significantly to the development of adaptation and mitigation measures.

We would like to invite you to contact us at our office in Berlin.

Prof. Jochem Marotzke
DKK Chairman

Marie-Luise Beck
DKK Managing Director

The DKK Mission Statement

- **We represent the main players of German climate research and provide an integrative platform for our members.**
- **We promote the interests of our members in the strategic planning of climate research in Germany, the EU and beyond.**
- **We foster information exchange and support interdisciplinary cooperation in climate research.**
- **We pursue an active dialogue with decision makers thus contributing to the development and formulation of research funding programmes.**
- **We provide information on climate research to the media and to society in order to contribute to a better understanding of climate change.**
- **We impart knowledge of climate research to decision makers thus contributing fundamentally to the strategic alignment, formulation and implementation of climate policy.**

‘DKK encourages and promotes young research talents. With its working groups DKK contributes to the future orientation of national and international climate research.’

The DKK services for international stakeholders

[ClimateCalendar](#)

Overview on important international climate events

[ClimateProjects](#)

Database providing examples of climate projects of the DKK members

[ClimateFunding](#)

Funding possibilities for climate research activities

[ClimateContacts](#)

Support in finding cooperation partners

[ClimateKnowledge](#)

Information on German climate research and climate policy

[StudyClimate](#)
